NEW BUSINESS

Lara Sims was voted onto our board by unanimous decision. Lara will be working on our website so please review your picture and bio to assure that they are current any job opportunities can also be sent to Lara for posting.

Russell Duren, our new Regional Director joined us and spoke about the Las Vegas PDC which is being planned for 2025. We also discussed things happening within the region and our efforts help make our region better. Our region is the largest in the US as far as area, although some chapters in the east have more people than our entire region, this makes attendance at meetings a challenge for many of our members. Since this is the case, we will continue to offer virtual attendance as well as in person.

We discussed member surveys and polling at meetings and via phone calls to determine what members want from the chapter and what would encourage them to participate.

End Time: 9:50 a.m.
